

COVID-19 Health Advisory
Updated 1st Jan 2022:

Message Classification: Official (external).

Dear Divers,

In line with the latest Covid-19/ Omicron Updates - <https://www.moh.gov.sg/covid-19>
please take note of the following:

1. TraceTogether-only SafeEntry will be implemented from 10 May 2021. You must have your TraceTogether token or app with you when entering Marine Keppel Bay or any other travel or dive venue location/s to facilitate accurate contact tracing, should the need arise.

2. You are required to notify and submit your contact declaration to us this if you are, in the past 14 days:

- a Confirmed Case/Suspect Case/Person under Quarantine Order/Person issued with Stay Home Notice, or have Acute Respiratory Infection (ARI) symptoms, such as runny nose, cough or sore throat
- have been in contact or living with a Confirmed Case/Suspect Case/Person under Quarantine Order/Person issued with Stay Home Notice, or a person with ARI symptoms
- Individuals with ARI symptoms should seek medical attention immediately

Please do not participate in a dive trip, and wait for advice from Travelgowhere & Scubareefing upon discretion of approval and discussion from the management team.

3. Throughout your dive trip with us, please have your mask on throughout your dive trip and ensure safe distancing measures are in place.

4. Please refer to the <https://www.moh.gov.sg/covid-19> for more information.

Let's continue to do our part in the fight against COVID-19/ Omicron.

Thank you.
Travelgowhere & Scubareefing

Information as shared by Ministry of Health Singapore on COVID-19 Health Advisory:

Latest update: <https://www.moh.gov.sg/covid-19>

site accessed since 13 Feb 2021.

We urge Singaporeans and all others members of the public, to remain calm and vigilant.

Everyone can continue to play their part by being socially responsible, practising good personal hygiene habits and complying with safe distancing measures.

Members of the public should adopt the following precautions at all times:

- Avoid close contact with people who are unwell or showing symptoms of illness;
- Observe good personal hygiene;
- Practise frequent hand washing with soap (e.g. before handling food or eating, after going to toilet, or when hands are dirtied by respiratory secretions after coughing or sneezing);
- Wear a mask if you need to leave your house;
- Cover your mouth with a tissue paper when coughing or sneezing, and dispose of the soiled tissue paper in the rubbish bin immediately; and
- Seek medical attention promptly if you are feeling unwell and get swabbed if your doctor refers you.

Crew Procedure/s:

Updated since 13 Feb 2021.

1. Gather the group before entering MKB Berth/ any other stipulated venue/locations.
2. Start headcount outside (make sure everyone has their masks on and practice safe distancing).
3. Crew to inform traveller/s or diver/s of their grouping - and ask them to stay in that group.
4. Board the boat when the last group has left, don't cluster together at the berth area.
5. Once on the boat, ensure temperature and Safe Entry check-in has been completed, give them a boat safety briefing and reminder for safe distancing
6. Before sail off, give your dive briefing
7. Remind divers to wear their masks on and practice social distancing at all times.
8. Remind customers of local or overseas travel gathering / dive time, do not be late as we need to follow strict schedule.
9. All crew on board are "safe distancing officers", make sure crew enforce this.
10. All issues and questions to be escalated to Trip IC during trip.

***** Note :**

Any other newest/ current updates with regards to the rules, regulations/policies making in view of Covid-19 and/or Omicron, please kindly refer to / adhere to Ministry of Health Singapore on COVID-19 Health Advisory and all participating IATA/ International Health Org/ WHO @ <https://www.moh.gov.sg/covid-19> and others.

Thank you for abiding strictly to all protocols in place.

Covid-19 General Rules Of Conduct

Offering our heartfelt best wishes to you, your friends, family members safety and health, during these difficult times.

Our team will continue to monitor daily changes, review global health risk across the world, will be constantly in touch with our working partners and dive instructors, staff to continue supporting the ongoing dive theory and practical classes, keep up with the ever changing local or overseas covid rules and policies to ensure that transmission risk of the virus is reduced to lowest or even zero during at point of time for all dive operations ongoing.

Kindly take accountability for your own actions and play your own individual part to safeguard, protect yourself, your dive buddies, friends, family and those around you.

Please be sure to contact us if you have any questions or concerns.

Covid-19 General Rules Of Conduct		
General	Close Proximity	In Water
Practice good hygiene and pay attention to one's cleanliness and individual habits.	General rules of conduct apply in close proximity, a better use of a protective face mask eg. N95 or KN25 face mask recommended, if individuals gather within a 2m/7 ft of distance to others. Everybody must wear a facemask at all times preferably.	All has to maintain a 2m/ 7ft distance whenever possible.
Frequent and thorough hand washing. Hand sanitizers can be used appropriately at any time, before entering into the water, or after the dive...	When handling dive gears, or equipments at all times, do remember that it should be disinfected before the dive. After the dive, bring it to the necessary cleaning area for washing and drying.	Individuals closer than the stipulated distance should be wearing diving masks, and breathing regulators.
Disinfect all your dive gears, equipments	No hugging or kissing or close body contact from the dive center to the beach shore to the dive boat to enter into water, regardless of what events happening in place before, during entering of water, in the water and after the dive.	Limit surface communications as much as possible.
When not feeling well, do stay home stay safe. If cough or sneeze accidentally, pls do it onto a tissue or elbow of the arm/elbow.	Any diver that needs to communicate/speak needs to maintain a 2m/7ft distance from the team.	Only one regulator should be removed at a time.
